

Inchies Envie and ATC Envie Template

with love from Skyjules.com

Print on colorful paper, thin or heavy.
Or glue to thin cardboard, trim and use
as a stencil to cut out on magazine or
calendar pages for a creative twist!

Print, cut, fold, glue.

TIP: I like to score the dotted lines before
I cut it out. Use a straight edge and burnishing
tool, scoring wheel or even a ballpoint pen
that has run out of ink to score along
the dotted lines.

Then trim carefully, fold all
flaps. Put small amounts of
glue on the overlapping edge
of the left and right flaps,
then glue the bottom flap up.
Glue carefully.

TIP: I like to slip a scrap piece of paper
inside the envie while I'm glueing so that
any excess will stick on that and not the
envelope. Pull out scrap before completely
dry.

Take your time trimming and folding and use
good glue and you will have a very nice
envelope for your ATCs and Inchies!
